

Multi-Purpose Community Facilities Program

A Capital Projects Fund Program

Program Background

The U.S. Department of Treasury awarded \$279 million to Pennsylvania for critical capital projects. In June 2022, the Pennsylvania General Assembly appropriated this funding to the [Pennsylvania Broadband Development Authority \(PBDA\)](#), which is using the funds to establish grant programs that identify eligible projects that meet program guidelines and federal requirements.

The [CPF-Multi-Purpose Community Facilities Program \(Facilities\)](#) is one of the three funding programs created by PBDA to help deploy these funds in communities across Pennsylvania.

Program Overview

The purpose of the program is to offer competitive grant funding to community anchor institutions and units of local government for community projects to construct, acquire, or improve buildings that are or will be open to the public to directly enable work, education, and healthy monitoring at the respective facility.

Permissible projects include construction or improvements to full-service community buildings, structures, and public spaces. Some examples include libraries and community health centers.

More details about the program requirements can be found in the [Program Guidelines](#).
